Since its establishment in 2008 in Kunshan City, Brigates Microelectronic Co., Ltd. has developed 9 CMOS image sensing chip models, including exclusive hi-speed IR 3D, 5-entity hi-speed parallel, and 130 nano-processed image sensor chips. We have also successfully mass-produced 5 models, which have sold over a million pieces throughout 2010, helping us to build a solid foothold in the field.
