*Founded on September 25, 1968, Allis Electric Co., Ltd. began operations producing low-voltage switchgear, motor control centers, high/low-voltage integrated start-up panels, AC/DC industrial control equipment and transmission and distribution apparatus. Its steady operations led to the development of independent departments which produce transformers, switching devices and electronic products designed to meet the requirements of heavy electric products sought by renowned private and state-run companies such as Taiwan Power Company, China Petroleum Corporation, China Telephone & Telegram Company to name a few.*
