<http://m.cens.com/s/jyhyih>

Founded in 1986, Jyh Yih Electric Enterprise designs and makes high-frequency machinery under the guidance of chairman Lin Bing-ding and general manager Chen Jin-cheng, both 20-year industry veterans. Steadily engaging in R&D and recruiting specialized technicians, we turn out quality products as hot-air sealers, high-frequency plastic welders, bentwood gluers, metal heat-treatment machines etc., all of which are sold globally. Talk to us to help you build business and production efficiently.
