<http://m.cens.com/s/aktc>

Founded in 1989, AKTC has sold millions of air pumps for air mattress and DVT applications in the last 20 years. With abundant innovation patents on the connection and construction of the air mattress, plus the sense of urgency to provide a better patient environment for the care and prevention of pressure ulcer, we built a new factory with new technique/new machinery in year 2010 for air mattress design and manufacturing.
