<http://m.cens.com/s/newbud>

As the name, New Bud is a newly established company who is separated from its mother company, the latter was established from April 1986 and starts to manufacture full lines of Bronze Faucet and its accessories. Taking the advantage of experience and knowledge of before, furthermore plus putting strength of professional designers, we have very soon developed and created a series of good quality brass connectors, revolving and oscillating sprinklers, then various sprayer guns, water wands. ...etc.
