<http://m.cens.com/s/hanacogroup>

Established in 2006 in Taiwan with Zhangjiagang Hana Metal as its plant in China, Hanaco Group has over the years steadily grown into one of the few large furniture makers and sellers capable of everything from sourcing to product completion. We've invested some US\$10 million in the business so far, with over 800 employees in a 90,000 sq.m.-plus factory to turn out 200 40-foot containers of goods monthly, 80% of which exported to Japan and the rest goes to Europe and the US.
