

# Caring for infant sleep safety

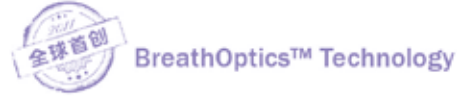

## Why UBabyCare? UBabyCare, Your Baby Care

### Who looks after your baby while you are asleep...?

Knowing your baby is doing well by actively monitoring your baby in real time will give you peace of time and ease the stress of parenting.

- Sleep Safety
- Health Care
- Sleep Quality
- Parent-Child Relationship

## Detection Technology

Smart Baby Mat detects the most subtle breathing movement of a newborn baby using state-of-the-art fiber optic sensing technology BreathOptics™. The technology has been tested in hospitals and proven to be able to capture baby breath count accurately. Adopted by over 20 maternity and post-natal care center, confirmed the usefulness of the product.

Breathing Stable and sound asleep

Baby with irregular breathing 20 seconds to trigger apnea alarm

Baby Having slight movements

SMART BABY MAT - Intelligent Baby Sleep Monitor Application for Smart phone
