Li-kong Co., Ltd. makes mainly induction motors in 1/4HP-125HP models in single and 3-phase, including standard (vertical, horizontal), inverter, pole-changing, anti-explosion, speed-reducing and brake motors. We also handle motor-housing downsizing, retrofitting, color alteration etc., as well as making aluminum, ferrous, pig-iron motor housings and galvanized-iron spindles.

Dimensional code

Flange mounted motor

Supermotor
