CHUNG KUNG Machinery Factory has a long history of woodworking machinery production. This company was established in 1965, in Feng Yuan City (central Taiwan), with a capital of NT\$30,000. Its first factory measured approximately 1,100 sq. ft. and employed 12. The first machines to be produced by CHUNG KUNG included Jointers, Thicknessers, Chisel Mortisers, Band Saws, and Table Saws. Most of the machines produced at that time were sold domestically.
