Milestones: 1976: Fu Li Shan Machinery Works established, with a 170-square-meter factory. 1978: Leng Meng Industry Co., Ltd. established, with a 550-square-meter factory. 1985: Fu Yu Shan Machinery Works Co., Ltd. established, with a 1,600-square-meter factory. 1992: factory expanded to 15,000 square meters. We mainly engage in R&D of various waste-plastic recycling and reproduction machines. With individually designed threaded rods, these machines efficiently melt, mix dry/wet plastic powder, film, thin sheets and irregularly-shaped materials for extrusion of superior-quality pellets.
