SUNWORLD Industrial Co., Ltd. has had a long-lasting business by putting customers first, emphasizing on product development, and manufacturing defect-free products. Constant improvements are achieved through investment on precision measurement apparatuses, and processing equipment as well as upgrading technical techniques. As a result, no defective products are manufactured and production efficiency is increased which allows low production cost and shorter delivery lead-time. We are emerging to be a reliable automobile parts and accessories manufacturer that contributes to society through high quality products.
