<http://m.cens.com/s/wanxin>

Wanxin Image Inc. was founded in March 2003. A group of young men with Don Quixote's spirit established the company together in a wine cellar. Among them, four are PhD's, professional in fields of circuit design, software development and applications, and mechanism design. With engineering design and manufacturing capabilities, they are able to provide customers complete solutions and high quality products, which enable us to reach a win-win outcome with customers.
