Lei Yang Industrial, founded in 2004, specializes in making hand tools for the refrigerant and coolant sector, including tube benders, flaring tools, tubing tool kits, PVC hose cutters, tube cutters etc. in various colors, styles and models. To ensure functionality, practicality and aesthetics, we stringently execute QC, testing and random inspection.

Innovative multi-tube-size design does the work of three conventional lever-type benders. Calibrated markings for making accurate left-hand, right-hand, and offset bends 180° apart requires less effort, saves bending time, and may help fixed back-stroke operation, holds tubing securely. Open slide-stops on tubing at any point. Attractive black and chrome finish.
