

製管機械

TUBE MAKING MACHINE

本公司承製之不銹鋼製管機及碳鋼製管機均採用最新、研發、自動化設計。主要在提高生產產能、降低不良率、操作容易、節省電力、達到產品質與成本的目的。
The company has been constantly researching, developing, creating and automating designs for stainless steel tube making machines and carbon steel tube making machines, aiming to increase productivity, reduce defect rate, simplify operations, reduce manpower, improve quality and to reduce cost.

- 機械主要部份**
1. 鋼板軋軋機
 2. 原料軋軋機
 3. 成型主機
 4. 成型機、捲管機
 5. 捲管機、管架定位機
 6. 自動收料機
- Major parts of the machines:**
1. Infrared steel-rolling rack
 2. Material preparation stage
 3. Main molding unit
 4. Molding unit, Winding unit, Winding and polishing unit, Winding and diameter setting unit.
 5. Automatic winding roller
 6. Automatic material unloading machine

碳鋼製管機
CARBON-STEEL TUBE MAKING MACHINE

型號	規格	管徑	管厚	管長	管重
Model	Specification	Thickness	Length	Weight	Unit
TM-60	400-2	20-20mm	0.30-2.0mm	60-100m	2000kg ± 2
TM-80	400-2	20-80mm	0.30-2.0mm	80-100m	2000kg ± 2
TM-100	400-2	20-100mm	0.30-2.0mm	100-100m	2000kg ± 2
TM-120	400-2	20-120mm	0.30-2.0mm	120-100m	2000kg ± 2
TM-150	400-2	20-150mm	0.30-2.0mm	150-100m	2000kg ± 2

不銹鋼製管機
STAINLESS-STEEL PIPE MAKING MACHINE

型號	規格	管徑	管厚	管長	管重
Model	Specification	Thickness	Length	Weight	Unit
TM-60	400-2	20-60mm	0.30-2.0mm	60-100m	2000kg ± 2
TM-80	400-2	20-80mm	0.30-2.0mm	80-100m	2000kg ± 2
TM-100	400-2	20-100mm	0.30-2.0mm	100-100m	2000kg ± 2
TM-120	400-2	20-120mm	0.30-2.0mm	120-100m	2000kg ± 2
TM-150	400-2	20-150mm	0.30-2.0mm	150-100m	2000kg ± 2

Tube Making Machine

TE KENG MACHINERY CO., LTD.

TEL:886-4-892-7160
FAX:886-4-892-7217
<http://m.cens.com/s/tekeng>

With more than 20 years' field experience in tube-making-machinery fabrication accumulated since 1981, the founder first established Hua Ming Corp. in April 1992, purchased CNC lathes and related computerized facilities, and started to produce tube-making machinery and tube-making rollers. Changing the corporate name to To Ming Ent. Co., Ltd. in Ma ... [more]

方管拋光機

SQUARE TUBE POLISHER

本公司承製之方管拋光機，採用最新、研發、自動化設計。主要在提高生產產能、降低不良率、操作容易、節省電力、達到產品質與成本的目的。
The company has been constantly researching, developing, creating and automating designs for square tube polisher, aiming to increase productivity, reduce defect rate, simplify operations, reduce manpower, improve quality and to reduce cost.

- 機械主要部份**
1. 鋼板軋軋機
 2. 原料軋軋機
 3. 成型主機
 4. 成型機、捲管機
 5. 捲管機、管架定位機
 6. 自動收料機

不銹鋼高週率製管機

STAINLESS-STEEL HIGH FREQUENCY TUBE MAKING MACHINE

本公司承製之不銹鋼高週率製管機，採用最新、研發、自動化設計。主要在提高生產產能、降低不良率、操作容易、節省電力、達到產品質與成本的目的。
The company has been constantly researching, developing, creating and automating designs for stainless steel high frequency tube making machine, aiming to increase productivity, reduce defect rate, simplify operations, reduce manpower, improve quality and to reduce cost.

- 機械主要部份**
1. 鋼板軋軋機
 2. 原料軋軋機
 3. 成型主機
 4. 成型機、捲管機
 5. 捲管機、管架定位機
 6. 自動收料機

氬弧製管機

TIG TUBE MAKING MACHINE

本公司承製之氬弧製管機，採用最新、研發、自動化設計。主要在提高生產產能、降低不良率、操作容易、節省電力、達到產品質與成本的目的。
The company has been constantly researching, developing, creating and automating designs for TIG tube making machine, aiming to increase productivity, reduce defect rate, simplify operations, reduce manpower, improve quality and to reduce cost.

- 機械主要部份**
1. 鋼板軋軋機
 2. 原料軋軋機
 3. 成型主機
 4. 成型機、捲管機
 5. 捲管機、管架定位機
 6. 自動收料機
