Founded in 1988, we have played a key role in the experienced the glorious days of Taiwan's hand-tool industry for well over a decade. In recent years, though having been confronted with drastic price-undercutting competition from the China's players market, under which many Taiwan hand-tool manufacturers have suffered, we have can still enjoyed a 10%-15% revenue growth each and every year, because we have grasped the key to winning—quality and price—which has always and always will be crucial to competitiveness play crucial roles in the markets.
