We specialize in manufacturing and exporting of various kinds of hose clamps to worldwide market, with more than 33 years worth experience, we first set up our business back in year 1975. We got all-in-one streamline processing procedure with us since screw parts to the completion of plating. During which, we have cultivated many to have become what they are today as professional expert. Our company was where many of the experts in the hose-clamping field were starting their career.
