<http://m.cens.com/s/imager>

SEDA Chemical Products Co., LTD was established in 1971 at a time when Taiwan's PU foam technology was limited to the cutting process of blocks and material application in three dimensional areas such as car seats, train seats, and motorcycle seats required much cutting, processing, and wrapping. In time, Western Germany successfully developed foam mold technology and Japan's INOAC obtained the rights for this technology.

## 為守護而生

守眠者系列安心鈴 Soft Touch & Call

增加了無線緊急呼叫求救功能，如小孩睡不穩翻身、睡向邊邊，或睡醒後，  
如欲離開以上有型設計，Soft Touch & Call更進一步提供了緊急呼救的用途，成為未來  
居家照護不可或缺的小幫手。

Soft-touch & Call
