RFID Cable Tie

Introduction

Cable ties/Wire ties are very common in our daily lives. Since the RFID components are securely encapsulated inside, it is easier to integrate RFID into applications in retail store management and various industries, for example. logistics 、 transportation and warehousing 、 animal husbandry 、 clothing industry 、 medical identification. In addition, RFID cable ties are also used in the automotive industry to identify tools and assist in assembly, such as shackles and cranes.

Available IC

ICODE series, Ucode 8, others upon request

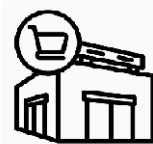

Date Sheet

Item	Specification
Operating Frequency	13.56 MHz or 860MHz-960MHz
Material	Nylon + Epoxy
Storage Temperature	-25°C to +100°C
Operating Temperature	-25°C to +85°C
Operating Distance	Depends on reader design
Dimension	L 200 x W 7.6 mm L 380 x W 7.6 mm

Application

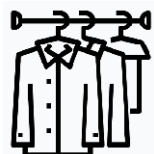

Automobile Industry

Retailing

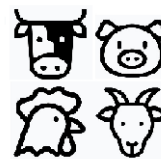

Logistics

Clothing Industry

Medical Management

Animal Husbandry
